

# 9TH ASIA PACIFIC CONFERENCE ON

# TRANSPORTATION AND THE ENVIRONMENT

**IN COLOMBO, SRI LANKA, 6-8 AUGUST 2014  
at Mt.Lavinia Hotel**

Transport related developments in many countries of the Asia Pacific region have led to a number of environmental impacts and concerns over the likely consequences of these impacts. The national and regional transportation infrastructure development and traffic operations in urban centres in particular, require careful planning so as to mitigate the negative social and environmental impacts.

The Conference scope covers various modes of transportation (air, land and sea) and inter-modal operations. It addresses the social and environmental related issues of all aspects of transportation operations and infrastructure development, encompassing activities of different phases such as Planning, Design, Construction, Maintenance, Rehabilitation, Management, Research and Training.
